

## Interleaved practise #1

### Number:

1. Starting at 14 326, count in 10s until you get past 14 500.

2.  $2\ 478 + \underline{\quad} = 2\ 629$

3. Read this number and say it: 23 748. Write it in words. How many tens of thousands, thousands, hundreds, tens and ones does it have?

4. Find two ways that you can make \$62.70 using coins and notes and draw them here.

5. Share 24 counters equally to show halves, then thirds, quarters, and eighths. Draw it.

### Measurement/Geometry:

6. Find 4 objects that would be measured in kilograms. Find 4 objects that would be measured in grams. List them here.

7. What time is it? What time will it be in half an hour?

8. Cut these rectangles to make triangles in as many ways as you can.

### Chance/Data:

9. What could the weather be like tomorrow? List as many possibilities as you can. Which is most likely? Which is least likely?
